Gene Kane  
Denali Commission  
510 L. Street, Suite 410  
Anchorage,, AK 99501

Dear Gene,

We want to thank you and the Denali Commission Solid Waste Program so much for funding our Burn Barrel Grant application. We applied in June 2009, received a letter in July 2009 stating that our application was scored high and that we were funded for \$ 23,400. We were contracted by AJ Salkoski from Rural Cap, Who said he would be handing our grant. He contacted the vendor for us and told him to proceed with the building of our burn unit. ON March 1, 2010 we were notified that the burn unit was ready to be delivered. We had to get the site ready and snow plowed. In Late March Tok Welding and Fabrication brought the burn unit down to the Northway Dump and trained our Maintenance man how to operate it. This has made our dump much more efficient as we are quickly running out of dump space. Thank you so much for funding our project. I have attached a couple pictures of our unit on our dump site. Thank you.

Sincerely,

A handwritten signature in cursive script, appearing to read "Nichol L. Rallo".
